TABLE OF CONTENTS VOLUME 22, 1989

No. 1, 1989

J. F. MADRID, J. BALLESTA, M. T. CASTELLS, J. A. MARIN AND L. M. PASTOR. Characterization of Glycoconjugates in the Intestinal Mucosa of Vertebrates by Means of Lectin Histochemistry 1

MASAHIKO MORI, RYOJI NAITO, KOUJI TSUKITANI, YUKIO OKADA AND TAKAHIRO TSUJIMURA. Widespread Distribution of Human Epidermal Growth Factor (hEGF) in Human Tissues and Organs Under Normal and Tumorous Conditions—Immunohistochemical Studies with the Use of Polyclonal and Monoclonal Antibodies 15

TANENORI HATAE, MAMORU FUJITA AND KEIJI OKUYAMA. Electron-Microscopic Demonstration of Carbohydrates and Proteins in the Apical Tubules of Kidney Proximal Tubule Cells 35

K. N. CHRISTIE AND C. THOMSON. Effect of Ischaemia on Membrane-Bound Hydrolases in Rat Soleus Capillaries 47

LUTFUN NAHAR, TOMIO OKADA, MASAFUMI ITO, MASARU OHASHI AND JUNPEI ASAI. Quantitative Analysis of the Expression of Ia Antigen Positive Dendritic Cells on the Squamous Epithelia After Birth in Mice 57

KATSUHIRO INOUE AND ITSUO YOSHIZAWA. Immunocytochemical Localization of Catechol Estrogens in the Rat Pituitary Gland. II. Median Eminence 65

JAANG-JIUN WANG, HWAN-WUN LIU, SHOU-HSIAN MAO, CHUNG-YANG YEN AND JEFFERY P. CHANG. Immunocytochemical Demonstration of the Binding and Internalization of Growth Hormone, B-Cell Stimulating Factor-1 and Thy-1.2 in Murine Lymphocytes 77

Twenty-ninth Annual Meeting of the Japan Society of Histochemistry and Cytochemistry, Utsunomiya, October 27–28, 1988

Symposium I: Some Recent Advances in Life Siences—Modern Histo- and Cytochemistry and Their Future—

KENJIRO YASUDA, SHUJI YAMASHITA AND MASAHIDE SHIOZAWA. An Experimental Study on the Application of Microwave Fixation to Immunohistochemical Studies 91

PAUL K. NAKANE, TETSUYA MORIUCHI, TAKEHIKO KOJI, YASUSHI TANIGUCHI, SHIN-ICHI IZUMI AND LI HUI. Proliferating Cell Nuclear Antigen (PCNA/cyclin): Review and Some New Findings 105

NOBUTAKA HIROKAWA, Quick-Freeze Deep Etch Replica Observation of the Cytoskeleton Combined With Antibody Decoration 117

TOYOSHI FUJIMOTO, KOZO YONEDA, MIKA NIHIRA, MASAHIRO MIZUNO AND KAZUO OGAWA. Cytoplasmic Occurrence of Fodrin in the Principal Cell of the Renal Collecting Tubule, the Epidermal Keratinocyte and the Adrenal Chromaffin Cell 119

OSAMU FUKUSHIMA, HIROSHI YAMASHITA, TOSHIO SAKAI AND TAKUMA SAITO. Application of Ultrathin Cryo-Sections to Enzyme Histochemistry 131

TOSHIHIRO TAKIZAWA AND TAKUMA SAITO. Freeze Substitution Fixation for Enzyme Histochemistry 139

YUKIO HIRAMOTO, YASUAKI YOSHIMOTO AND TAKASHI IWAMATSU. Increase in Intracellular Calcium Ions Upon Fertilization in Animal Eggs 153

ANNOUNCEMENT 157

No. 2, 1989

MING HU HAN, YING JIE PIAO, DE WAN GUO AND KAZUO OGAWA. The Role of Schwann Cells and Macrophages in the Removal of Myelin During Wallerian Degeneration 161

KAZUTO YAMADA, HIROYUKI SHINOHARA, TAKAAKI TANAKA, YUKIO OKADA AND MASAHIKO MORI. Heterogeneity of Keratin Distribution as Revealed by Monoclonal Antibodies in Salivary Pleomorphic Adenomas 173

SHE-QUI LUO, MASAHIRO SAKAI, CI-SHENG ZHONG AND KAZUO OGAWA. Histochemical and Cytochemical Studies of Neutral pH *p*-NPPase on Lysosomal Membrane in Rat Liver 187

ANDREAS SCHOBER, WILFRIED SCHOBER AND HANS LUPPA. Serotoninergic Raphe Nuclei Projection to the Basal Forebrain in the Rat: A Combined HRP-and 5-HT-Immunohistochemical Investigation 199

HARUHIKO SHINOGAMI. Cytochemical Localization of K^+-NPPase in the Heminode of Ranvier in the Rat Optic Nerve 207

HIDEYUKI GOTO. Distribution and Metabolic Fate of Radioactive Carbon from L-[U-^{14}C]Arginine Administered into Mice 215

Letter to the Editor

YOTARO KONISHI, YASUYO HATA AND KEN FUJIMORI. Formation of Glycogenosomes in Rat Liver Induced by Injection of Acarbose, an α-Glucosidase Inhibitor 227

Twenty-Ninth Annual Meeting of the Japan Society of Histochemistry and Cytochemistry, Utsunomiya, October 28, 1988

Symposium II: Modern Histo- and Cytochemistry in Neuroscience—Embryogenesis and Regeneration of the Nervous System—

SHINOBU. C. FUJITA. An Immunological approach to Proteoglycans in the Brain 235

HIROSHI KIMURA, IKUO TOHYAMA, KOUNOSUKE, MIZUTANI AND JUNZO OCHI. Fibronectin-Like Immunoreactive Structures in Embryonic Rat Brain 243

KENICHIROU INOMATA, FUMIO NASU, KAZUHIRO TOMIYASU AND MOTONOBU MIYAZAKI. Neuronal Development and Related Histochemistry—Enzymatic Polarity in Brain Capillaries 259

CHIZUKA IDE, KOUJIRO TOHAMA, TATSUO USHIKI, TOHRU NITATORI, YASUO YOSHIDA AND SHUICHIRO HAYASHI. Histochemical Aspects of the Schwann Cell Basal Lamina 265

NOBUYUKI, SHITARA, KAZUYUKI KITAMURA, TERUMI WADA, HIROHIKO NAKAMURA AND KINTOMO TAKAKURA. Transferrin Receptor Molecules in Human Cell Lines Derived From the CNS Malignant Gliomas: Immunohistochemical and Flow-Cytometric Study 275

ANNOUNCEMENT 289

No. 3, 1989

TAKEHIKO KOJI, ISAMU SUGAWARA, MINORU KIMURA AND PAUL K. NAKANE. *In situ* Localization of c-*MYC* mRNA in HL-60 Cells Using Non-Radioactive Synthetic Oligodeoxynucleotide Probes 295

MICHIHIRO YABU, SEIICHI HIMENO, YOSHINORI KARIYA, HISAO FUJITA AND SEIICHIRO TARUI. Identification of Grastrin- and Cholecystokinin-Cells in Human Gastric Antrum and Duodenum Using *in situ* Hybridization Technique 309
RYOICHI SHIMONO, MASAHISA SHIMADA, KENJI YAMAGUCHI AND YU HOSOKAWA. Tissue Distribution and Metabolism of Radioactive Sulfur Amino Acids ([1-^{14}C]Cystine, [^{35}S]Cysteine) in Pregnant Mice; A Whole-Body Autoradiography and Its Biochemical Analysis 315
AKIKO SETO-OHSHIMA, EIKO AOKI, REIJI SEMBA, PIERS C. EMSON AND CLAUS W. HEIZMANN. Parvalbumin Immunoreactivity in the Reticular Thalamic Nucleus of Developing Rats 331
MAKOTO HOSHINO, KENJI KATAGIRI, AKIHIKO TAKESHIMA, TOMIO NAKAI, HAYATO OHNISHI, TOMIHIRO HAYAKAWA, MAKOTO MIYAJI AND TOSIHIKO TAKEUCHI. Cytoskeletal Protein Changes in Hepatocytes of Bile Duct-Ligated Rats 341
KAZUSHIGE DOBASHI, KOHTARO ASAYAMA, KIYOHIKO KATO, MAKIO KOBAYASHI AND AKIRA KAWAOI. Immunohistochemical Localization of Copper-Zinc and Manganese Superoxide Dismutases in Rat Tissues 351
SHUJI YAMASHITA, SADAKAZU AISO, MASAHIDE SHIOZAWA AND KENJIRO YASUDA. Immunohistochemical Study of Gamma-Glutamyl Transpeptidase with Monoclonal Antibodies. II.. An Immunoelectron Microscopic Study in Rat Kidney 367
HIROYUKI SHINOHARA, KAZUO YAMADA, TAKAAKI TANAKA, MICHAEL A. MEENAGHAN, YOSHIAKI TAKAI AND MASAHIKO MORI. Monoclonoal Antibody to Keratin K8.12 Expression in Ductal Basal Cells of Obstructive Lesions and in Outer Tumor Cells of Salivary Pleomorphic Adenomas 375
VESELINA OGNEVA, PETKO PETKOV AND MICHAIL DAVIDOFF. Ultrastructural Localization of Acetylcholinesterase Activity in Endocrine Cells of Rat's Pancreas 385
HARUO OHTANI, IKURO MARUYAMA AND SUGURU YONEZAWA. Ultrastructural Immunolocalization of Thrombomodulin in Human Placenta with Microwave Fixation 393
TOSHIMITSU WATABIKI, TAKUMA TOKIYASU, NORIAKI ISHIDA AND KAZUO OGAWA. Histochemical Localization of Aldehyde Dehydrogenase Activity in the Mouse Liver by the Copper Ferrocyanide Method 397
TOSHIMITSU WATABIKI, TAKUMA TOKIYASU, NORIAKI ISHIDA AND KAZUO OGAWA. Double Staining Procedure for Histochemical Localization of Alcohol and Aldehyde Dehydrogenase Activities in the Mouse Liver 401
ANNOUNCEMENT 407

No. 4, 1989

MAMORU NAGANO, ATSUKO FUJIOKA AND SHIRO MORI. Cytochemistry of Ca^{2+}-ATPase in the Tanycyte of the Third Ventricle 411
JOE SAKAI, TADASHI UEDA AND KEI-ICHI HIRAI. Postnatal Develpment of Peroxidase Activity in the Laryngeal and Tracheal Epithelia and Glands of Specific Pathogen Free Rats 421

Masaya MATSUSHITA, Takayuki AKAHOSHI and Takuma SAITO. Cytochemical Localization of Nicotinamide Adenine Dinucleotide Phosphatase (NADPase) and Nucleoside Diphosphatase Activities in the Golgi Apparatus of the Rat Epididymis 431
Kouta YAMAMOTO, Alfred VÖLKL and H. Dariush FAHIMI. Biogenesis of Peroxisomes in Regenerating Rat Liver. II. Immunoelectron Microscopical Investigation of Catalase and Acyl-CoA Oxidase 443
Nobukazu ARAKI and Yoichiro TAKASHIMA. Variations in the Morphology and Ca^{2+}-ATPase Activity of the Ovarian Surface Epithelium in Rats 459
Benedicto de Campos VIDAL and Maria Luiza S. MELLO. Critical Electrolyte Concentration of DNA and Nucleoprotein Complexes *in vitro* 471
Noriyuki SAHARA, Katsuhiko FUKAZAWA, Minoru HARADA and Kazuo SUZUKI. Subcellular Localization of Dipeptidyl Peptidase IV in Rat Kidney and Small Intestine 479
ANNOUNCEMENT 487

No. 5, 1989

Junzo SASAKI, Sadahiro WATANABE, Shigeto KANDA, Takako NOMURA, Yukiko TANAKA and Nagayasu OTSUKA. Demonstration of Actin and Cytokeratin in the Nonciliated Bronchiolar Epithelial (Clara) Cell of Rat 491
Cisheng ZHONG, Kazunori ISHIMURA, Tomoko YOSHINAGA-HIRABAYASHI, Hisao FUJITA, Jo KITAWAKI and Yoshio OSAWA. Immunocytochemical Study on the Localization of Aromatase in the Ovary of Golden Hamster, Guinea Pig and Cow 501
Kohsuke CHIDA. Changes in Alkaline Phosphatase and γ-Glutamyl Transpeptidase During the Process of Rat Hepatocyte Proliferation 509
Shuji YAMASHITA, Sadakazu AISO and Kenjiro YASUDA. Monoclonal Antibodies to the Secretory Granule Membrane of the Rabbit Parotid Gland: Presence of a Common Antigen in Secretory Granules of Both Exocrine and Endocrine Cells 517
Masahito WATANABE, Noriko AKAGI, Hideyuki GOTO and Masahisa SHIMADA. Whole-Body Fluorography Using Black Light Fluorescent Tubes 535
Isamu SUGAWARA, Kenji UCHINO, Takehiko KOJI, Jun SUKEGAWA, Shigeo MORI and Paul K. NAKANE. Immunohistochemical Detection of Human Cellular Yes Gene (*c-yes*-1) Messenger RNA by a Non-Radio-active Synthesized Oligodeoxynucleotide Probe 549
Airo TSUBURA, Toshihiko INUI, Hideto SENZAKI, Naotaka KUSUNOSE, Sotokichi MORII and Jo HILGERS. Immunohistochemical Reactivity of a Monoclonal Antibody Against Cell Membranes of Human Mammary Carcinoma Cells (125B4) with Rat Normal Tissues and DMBA-Induced Mammary Tumors 561
Gred POEGGEL, Hans LUPPA, Heike BRANDT and Roland VETTER. Immunohistochemical Demonstration of Protein Kinase A in the Rat Hippocampus 573
Gred POEGGEL, Hans LUPPA, Heike BRANDT and Roland VETTER. Immunocytochemical Demonstration of Protein Kinase A in the Rat Hippocampus 579

Letter to the Editor

NOBUKAZU ARAKI, HIROSHI MATSUBARA, YOICHIRO TAKASHIMA AND KAZUO OGAWA. Three-Dimensional Distribution of Acid Phoshatase-Positive Thread-Like Structures "Nematolysosomes" in Rat Pancreatic Exocrine Cells 585

No. 6, 1989

MASAHIRO MIZUNO, TOYOSHI FUJIMOTO AND KAZUO OGAWA. Distribution of F-Actin, Fodrin, and Ankyrin in Ankyrin in Gastric Parietal Cells of the Rat 593

TAKASHI KITAOKA, KAZUSHI FUJIMOTO, SATOKI UENO, YOSHIHITO HONDA AND KAZUO OGAWA. Cytochemical Demonstration of Lectin Binding Sites in Rod Photoreceptor Cells and Interphotoreceptor Matrix of Rat Retinas by Labeling Frozen Thin-Sections with Various Lectins 605

YASUHISA HATTORI. Localization of Xanthine Dehydrogenase in Chicken Liver 617

MIKA NIHIRA, TOYOSHI FUJIMOTO, YOSHIHITO HONDA AND KAZUO OGAWA. Distribution of Fodrin and *a*-Actinin in the Rat Retinal Pigment Epithelium *in vivo* 625

MASAHIRO MIZUNO, TOYOSHI FUJIMOTO AND KAZUO OGAWA. Immunocytochemical Localization of *a*-Actinin in Gastric Parietal Cells of the Rat 639

TAKASHI SAWADA, TAKASHI YAMAMOTO, TAKAAKI YANAGISAWA, SHOSABURO TAKUMA, HIDEAKI HASEGAWA AND KEIICHI WATANABE. Immunohistochemistry of the Distribution of *a*-Tubulin in Rat-Incisor Odontoblasts and Ameloblasts 651

C. HAUG, C. WESTPHAL, E. ZWERGER, B. BROMLEY, I. DERAD, R. MARTIN AND E. F. PFEIFFER. Light- and Electron-Microscopic Investigation of ANP-Like Immunoreactivity in Aorta, Carotid Artery and Cultured Cardiac Myocytes of the Rat 659

ANDREAS SCHOBER, KURT BRAUER AND HANS LUPPA. Alternate Coexistence of NADPH-Diaphorase with Choline Acetyltransferase or Somatostain in the Rat Neostriatum and Basal Forebrain 669

KAZUYORI YAMADA, YASUMASA MATSUMURA, HARUKI SUZUKI AND OSAMU FUJIMORI. The Histochemistry of Collagens and Fibronectin in the Gallbladders of the Guinea Pig and Mouse 675

TAKAFUMI YOSHIOKA. Histochemical Examination of Adenosine Nucleotidases in the Developing Rat Spinal Cord: Possible Involvement in an Enzymatic Chain of ATP Degradation 685

Thirtieth Annual Meeting of the Japan Society of Histochemistry and Cytochemistry, Kyoto, October 23–25, 1989

Takamatsu and Gomori, Fiftieth Year Memorial Lecture 695

Japan Society of Histochemistry and Cytochemistry. Thirtieth Anniversary Lectures 699

Abstracts of General Session 707

Author Index 748

Subject Index 751
